**Invitation to a visit of the
Dornier-Museum, Friedrichshafen
(Aviation & Aerospace-Museum)
Saturday, April 26th, 2014**

We invite the Master Students and Senior Consultants to join an excursion to the Dornier-Museum in Friedrichshafen, located directly at the Friedrichshafen Airport.

“Anyone can be a pioneer” – that’s certainly one message visitors to the Dornier Museum Friedrichshafen will take home with them. Around 400 exhibits, including twelve original aircraft, seven full-scale models from the world of aerospace, and a life-size replica of a Dornier Merkur plane from the 1920s, allow technology and history buffs and aviation aficionados of all ages to experience 100 years of exciting aviation history – an inspiring celebration of the pioneer spirit.

We will have a guided tour in English through the museum which takes about 1 hour. For further details see www.dorniermuseum.de

After the guided tour, we have about 1 hour in the museum to get more impressions on your own or to visit the cafeteria.

After the visit to the museum, we will take the train to Friedrichshafen town, where we have a walk along the lakeside promenade. The lakeside promenade at Friedrichshafen is one of the longest and most beautiful on Lake Constance. A splendid view of the lake and the alps is to be enjoyed, from the mouth of the river Rotach to the chateau. The extensive port area along Seestraße and Uferstraße adds a hint of maritime flair to the promenade and numerous cafés are on hand for those who care to linger. This is also the port of the ferry line "Weiße Flotte", from where the ships set sail for all of the important places on Lake Constance.

It's also well worth visiting the 22 m high viewing tower on the pier. The car ferry to Switzerland also docks on the lakeside promenade, along with the renovation docks for the ships of Lake Constance, and, last but not least, the marina for gondolas and yachts belonging to the Württemberg Yacht Club.
