The *Breitach* is a small creek flowing in a deep valley of up to 50 meters depth and with rocks rising up on the right and left side. The water from the surface is frozen and forms majestic icecicles. We will walk on a path on the right or left side of the creek, which is secured by railings. The path is strewn with split. For your own safety it is highly recommended to wear winter shoes with grippy soles.

The total length of walking tour is around 7 km, thereof the tour along the gorge 2 km. Estimated total time is about 2:30 hours.

These are the recommended winter shoes:
